

BT's Price Increase

BT has increased all of their line rental prices by 4.8%. Can your business afford these additional costs?

We can save you up to 15% on your standard BT pricing for lines and an average of 28% saving on call charges!

Additional Benefits:

- Direct access to account manager.
- No call centres.
- 24 hour support line (manned).
- Pro-active pricing commitment.
- Online billing.
- Customer access to our website.
- No minimum call or set up charges.

BT has increased their line rental product pricing, including analogue, ISDN2 and ISDN30 by 4.8%.

This increase came into effect on 1st November 2007.

Concert Networks:

Concert is an integrated Telecoms and IT provider committed to excellent customer service. When you work with Concert you will be allocated a direct account manager and a service and support line which is manned 24x7 so you won't ever have to ring a call centre again.

We are an approved BT Openreach Partner which means that we can seamlessly move your BT services to Concert with no changes or interruption to your service.

There is no minimum call or set up charges and you will also have a customer login so that you can view your bills online. Unlike the majority of other telecoms providers, we pro-actively check our prices and as we receive discounts from our suppliers, we pass the savings directly on to you the customer.

Why not speak to Concert now to see how much you can save – can you afford not to?
